

## MAGNETIC

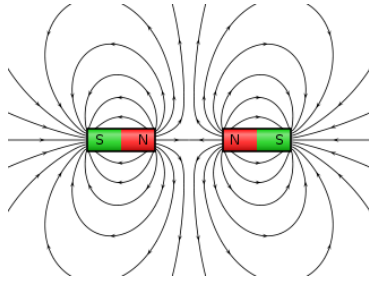

The north pole of one magnet attracts the south pole of a second magnet., while the north pole of one magnet repels the other magnets north pole.

## POLES

Either of the two ends of a magnet

## FORCE

Magnetic force is the attraction or repulsion that arises between electrically charged particles.

## PUSH

**PUSH**

A force that moves something away from oneself.

## PULL

**PULL**

A force that moves something towards oneself.

## Forces and Magnets

## ATTRACTION

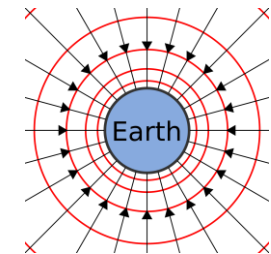

Magnets attract to iron and other metals.

## REPEL

When a magnetic pole repels another magnetic pole it gives out a force that pushes the other pole away

## GRAVITY

The force that attracts a body towards the centre of the earth.
